

Continuing Education Sector Report
November 2022

Workload Presentations

Please send an email to pmachado@ptusep.com if you would like to schedule a meeting for the teachers at your centre for a presentation on workload.

Workload Templates

PTU has not received a copy of either the Adult or the Vocational workload template. The Centre Directors have and are in the process of having teachers complete it. We do not know when they are expected by HR.

Salary Deductions

- Sick day deductions will be based on the teaching and supervision (if any) in Adult Education and Vocational Training. A full day is based on 384 minutes.
Here is an example: You were absent on a day when you were teaching 3 hours... $180/384 = 0.4688$ deduction for this absence.
- A pedagogical day is 5h24, this represents 324 of 384 minutes which equals 0.8438 of a day.
- Special leave days remain unchanged at a ½ day or full-day deduction.

Adult Education - Online and Hybrid Classes

A Pilot Program for Virtual Classes in Adult Education will be presented at the next EPC meeting on November 28, 2022. PTU has asked many questions and they are expected to be answered then. I will report back once the information is shared.

English University Program

From the latest information received from QPAT, it seems that McGill has withdrawn its proposal to offer the Bachelor of Vocational Education Program. The parties involved are trying to get the University of Sherbrooke to reconsider their decision to discontinue the program. PTU does not know when/if this will be resolved any time soon.

Recall Lists 2023-2024 in Vocational Training

Our 2023-2024 Vocational Recall List is changing. As per the new local agreement, the school board's Recall List will be split per centre AND per legal qualification. Moving forward, every centre will have their own Recall Lists of legally qualified (List 1) and non-legally qualified (List 2) teachers to whom posts will be offered. List 1 must be exhausted before List 2 is used. Provisions were made to include the 2022-2023 non-legally qualified teachers in the legally qualified list for the 2023-2024. However, this is a transitional measure. If the non-legally qualified teachers do not become legally qualified by the following year, they will be transferred to List 2 for the 2024-2025 year. HR and PTU have a meeting on January 16th to discuss these upcoming changes.

Sectorial Demands

The Sectorial demands were deposited on October 31, 2022. PTU has already provided an overview, including the relevant demands affecting Adult Education and Vocational Training.
