

Central Professional Improvement Committee (CPIC)
Meeting of June 9, 2023

Review of Requests

16 requests for a PDA were presented and approved: 3 were pending as the teachers submitted their requests as New Teachers and they needed to get contracts the following school year for their PDA to be funded. Those teachers will be contacted.

4 requests for credit courses were presented and approved.

4 requests for a Special Project were presented; 3 were approved. One was rejected as the committee felt it did not meet the "Special Project" criteria of having 75% of teacher involvement and that the release funding requested was better suited for a network subsidy. The school will be contacted.
