

Central Professional Improvement Committee (CPIC)
Meeting of January 18, 2024

DPIC Plans

The committee reviewed and approved all new plans received as well as the revised plans that were resubmitted. There are still 26 schools or centres that have not yet submitted their plans.

Review of Requests:

22 requests for a PDA were presented: 15 were approved. 6 were denied as they were new teacher requests, and the New Teacher's budget is depleted. Those new teachers can apply through the regular DPIC/CPIC application. 1 request is pending as the request was for both credit course and conference funding, so the teacher will have to specify which funding will apply.

8 requests for credit courses were presented: 4 were approved. Of the others, 1 was approved for 5/6 credits as they have already been reimbursed for 1 credit; 1 has already reached their maximum funding for the year; 1 is a teacher without a contract and 1 missed the fall deadline.

There were no requests for a network as the budget is depleted.

There were no requests for special projects.
