

PTU President's Report to the Delegates Assembly

April 2, 2025

Local Negotiations 2023-2028

The text of the local agreement has been finalized. The text of the agreement is scheduled to be signed on April 10 and will take effect immediately upon signing. This will ensure that any new provisions regarding staffing will be in place for the upcoming spring staffing season.

I wish to thank Erica Lamothe, Pasquale Machado and Marie-Pier Michaud for their dedicated work throughout this round of local negotiations.

School Organization Modifications (Article 8-10.00)

Following discussions in our February Delegates Assembly, a guide has been produced to help support schools who are considering making modifications to their school organization plan according to article 8-10.00 of the provincial entente.

This guide will be made available to PTU Delegates and School Council Chairpersons as soon as possible.

VAR Information Session

To help support the implementation of the VAR Guidelines, particularly in light of the changes made this year, an information session will be held on **April 8 at 4:30 PM** via Zoom. This session is open to VAR Chairpersons, PTU Delegates and members of the Executive.

Déboulage in High Schools

Following much internal discussion, the QPAT Board of Directors approved a QPAT position regarding *déboulage* on March 21. This position mirrors the discussion that we have been having at PTU, and our discussions helped shape the final QPAT position. I want to thank the high school members of the PTU Executive for their advocacy and interventions to help reach this stage with QPAT.

To help disseminate the QPAT position and to help high schools navigate the important decisions they need to make in the coming months, an information session will be scheduled on **April 15 at 4:30 PM** via Zoom. Invitations will be shared with PTU Delegates and School Council Chairpersons.
