### MENTORING

School Councils need to consult on the recommendation of mentors for 2025-2026. Principals are aware that this needs to be done. You may recommend the same mentor or recommend a different teacher. The final appointment is still made by the school board. Mentors will be notified by May 31 as to their position for next year.

### RREGOP ISSUES FOR MENTORS

As of early April, the school board reports having fixed 22 of the 42 RREGOP errors that affected mentors. Teachers will receive an email letting them know when their file has been corrected and should verify their 2024 statement when they receive it at the end of this year to ensure the changes are reflected there.
